Dr. Olaf Hansen
Vice President, Res. & Dev.
Tevra Brands LLC.
401 North 1st Street
LaSalle, CO 80645

OPP Decision Number: 521225
EPA File Symbol: 92413-I
Product Name: TEVRAPET Permethrin Spot On Dog
EPA Receipt Date: August 18, 2016
Company Name: Tevra Brands LLC

Dear Dr. Hansen:

The Agency has completed its preliminary technical screening of your application pursuant to Section 33(f)(4)(B)(i)(II) of the Federal Insecticide, Fungicide, and Rodenticide (FIFRA), as amended by the Pesticide Registration Improvement Extension Act. The Agency has determined that your application did not pass the preliminary technical screen and therefore must be rejected.

Specifically, the Agency identified acute toxicity data, companion animal safety data, and efficacy data as having been deficient in the original 10-day letter dated 10/25/16. The Agency received your response to the 10-day letter on 11/08/16. Upon reviewing your resubmission, it has been determined that the efficacy data and companion animal safety data are unacceptable.

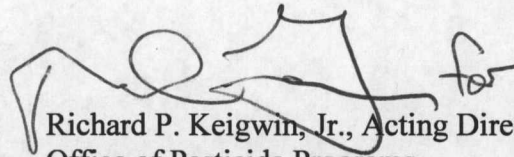

Any future submissions to the Agency will be considered a new application and subject to the full registration service fee, as well as another initial content screen and preliminary technical screen.

You may be eligible for a partial refund as a result of your application's rejection for failure of its preliminary technical screening. Consult the Agency's Refund Policy at: <http://www.epa.gov/pesticides/fees/fee-reduction-guidance.pdf>. If you believe you are entitled to a refund, submit a refund request to the appropriate PRIA ombudsperson identifying the rejected application by decision number(s) and PRIA category.

Decision: 521225
